J. B. McLAUGHLIN. One Honest Company.

The insurance public are closely scrutinizing the financial management of our still solvent Insurance Companies. It is constantly repeated that some of the most prominent Companies are borrowing largely from the future, and it is said that the unusual delay in adjusting claims arises from the necessity of accumulating premium receipts to pay losses.

Whether or not these things be so, it afforded us true pleasure to be convinced that one company at least has taken steps to pay its losses in full, without impairing its cash capital surplus before the Chicago fire, or using its present premium receipts, which may be needed to pay future losses. Its Board of Directors made, on October 16th, an assessment upon the stockholders, to be paid in sixty days, sufficient to pay every dollar lost in Chicago, and already half of the assessment has been paid before maturity. The stockholders number 375, and we are informed by parties not belonging to the company, are all wealthy men in Central Ohio. For such honorable conduct and correct financial management, we praise the Home Insurance Company of Columbus, Ohio, This action commends the company to the public as a desirable one in which to place insurance.—Chicago Evening Mail.
